

## ABOUT OUR COMPANY

DigiComm is a 100% owned managed BBEE Level One Contributor. Started in 2000, our company specialises in developing integrated solutions to meet and exceed the convergence requirements of our clients. Our expertise lies in the Audio-Visual and ICT arena thus enabling us to provide the most excellent solution for all spheres of our customers business requirements.

Our services and product offerings are tailor-made to provide a complete turnkey solution that will impact positively towards your bottom line & the overall operational objectives of the business. Cost effectiveness is part and parcel of this approach to provide a one-stop shop in the convergence market sectors. DigiComm has risen to meet the challenge of developing the skills level in the markets we participate in.

DigiComm is a proud member of the South African Communications Industries Association (SACIA) whom are the local Audio-Visual body which promotes Audio Visual Excellence and provides education to the Audio-Visual dealer base in South Africa.

### VISION STATEMENT

Our vision is to be the preferred supplier that delivers quality technology based on innovation, reliability & service in a dynamic & professional manner.

### MISSION STATEMENT

Our mission is to provide our clients with quality audio-visual, cellular, & ICT products and services in the most cost efficient & professional manner.

### COMPANY VALUES

Business excellence through professional customer service is our trademark.
