Re: Reference Letter for the Audio-Visual Specialist, DigiComm

Attention: To Whom it may concern,

I, Yolanda Roux; Senior Facilities Manager for Tsebo Facilities Solutions have been managing the following client portfolio's since January 2017;

- Mercedes-Benz South Africa
- Daimler Truck Southern Africa
- Motus
- Festiglo Investments

TFS is responsible to manage and maintain the facilities for these clients; services include but not limited to:

- Cleaning service
- Hygiene Services
- Catering Services
- Engineering Services
- Facilities management

DigiComm is contracted as the Audio-Visual service provider for my portfolio and have been rendering services since January 2017.

DigiComm is responsible for the installation and maintenance of all the Audio-Visual Equipment in my portfolio build for purpose and to client specifications in venues ranging for 10 seaters to 150 seaters.

The level of service received from DigiComm is exceptional, I can gladly recommend them as I am sure you will be receiving the same level of service that I have been accustomed to over the past 7years.

**Yolanda Roux,**  
Senior Facilities Manager
