Digital Signage Screens

Screens placed in the lobby, hallway or other public spaces provide an effective way to display advertisement or information inside the building.

hibox:

DIGITAL SIGNAGE WITH HIBOX SMARTROOM

Digital Signage screens placed in the **lobby, hallway** or other **public spaces** is an effective way to display advertisement or information inside the building.

Slideshows, videos and other content can be freely mixed and looped with a specified schedule and priority.

Touch control can be provided optionally for interactivity.

Signage screen or Smart Hotel TV.

DIGITAL SIGNAGE WITH HIBOX SMARTROOM

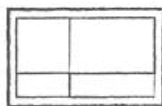

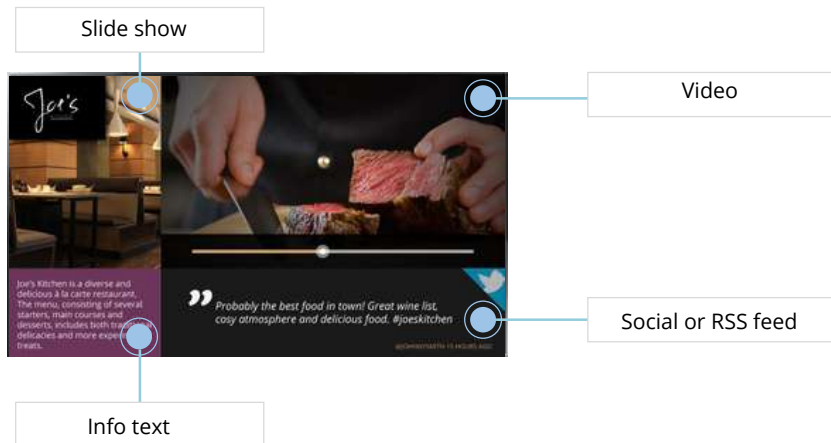

"Show dynamic content, such as social media feeds, slideshows or info bulletins mixed with live TV, videos or something else – content can be mixed and matched to your needs."

"Content on the Signage Screens can be split between brands and hotels or even be tailored to specific customer segments."

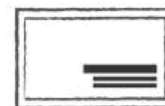

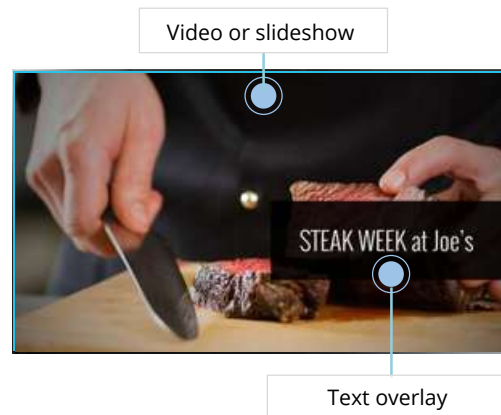

"Utilize this for managing and tailoring your content and marketing campaigns across all your locations."
