PROFESSIONAL COLLECTION

Bata Industrials presents the brand-new Professional footwear range, meticulously engineered for those in demanding, fast-paced environments. Designed for exceptional comfort, safety, and durability, this collection allows professionals to work with complete confidence throughout long shifts.

This Professional range features slip-resistant, SRC-rated lightweight rubber soles, ensuring superior grip on wet and greasy surfaces. For sustained all-day comfort and hygiene, each shoe incorporates an ORTHOLITE® insole with 5% recycled content, providing long-term cushioning, lightweight support, and antimicrobial protection.

Trusted globally, this range seamlessly integrates advanced footwear technology with essential everyday comfort.

THE SOLE OF BATA

Founded in 1894, The Bata Shoe Organisation is one of the world's leading manufacturers and retailers of quality footwear. With over 30,000 employees, 24 production facilities, 5,000 international retail stores, and a presence in over 70 countries, the company was first registered in the town of Zlin, Czechoslovakia.

From humble beginnings, the small family business expanded rapidly under the vision and guidance of

founder Thomas Bata. Thomas, a ninth-generation shoemaker, was determined to become a manufacturer who could provide customers with value for their money. Bata became an international business in the first half of the 20th century, and by the second half of the century, it emerged as a progressive and market-leading pioneer of the modern footwear industry, now an iconic brand recognised all around the world.

BATA SOUTH AFRICA

Bata established its South African presence in 1931, in the heart of Loskop, KwaZulu-Natal. The Loskop factory is the proud manufacturer of our Toughees and B-First school shoes, alongside a diverse range of safety shoes, producing over 5 million pairs annually.

Bata attributes its production success to the dedicated South African workforce. By producing many of our shoes locally, we have contributed to the growth of both the local and national economies, offering our customers better value for their money.
