

ABOUT CASSAVA TECHNOLOGIES

Cassava Technologies is a global technology leader of African heritage providing a vertically integrated ecosystem of **digital services** and **digital infrastructure** enabling digital transformation.

Headquartered in the UK, Cassava has a presence across Africa, the Middle East, Latin America and the United States of America. Through its business units, namely, Cassava AI, Liquid Intelligent Technologies, Liquid Cloud and Cyber Security, Africa Data Centres, and Sasai Fintech, the company provides its customers' products and services in 94 countries. These solutions drive the company's ambition of establishing itself as a leading global technology company of African heritage.
